The Fledglings class is an opportunity for parents and their little ones to explore materials and the natural world together, while becoming familiar with our school setting. Our approach will highlight the capabilities of even the very youngest learners, and help parents learn to both see the world with wonder, through the eyes (and hands) of their children, and also foster a deeper sense of how to support this kind of learning and connection.

*"If a child is to keep alive his inborn sense of wonder...he needs the companionship of at least one adult who can share it, rediscovering with him the joy, excitement and mystery of the world we live in." Rachel Carson*
